Re: CALENDAR YEAR 2012 ANNUAL EMISSIONS REPORTING/FEEs

Dear Facility Owner/Operator:

The South Coast Air Quality Management District (AQMD) requires facilities that exceed specific emission thresholds to report their emissions annually and pay fees based on the amount of air contaminants emitted as stated in Rule 301(e) and Rule 301(f)(10). The emission-based fee is authorized by State Health and Safety Code Section 40510 to be used to cover the cost of various air quality improvement efforts such as evaluation, planning, air monitoring and inspections.

Your facility is identified to be subject to the Annual Emissions Reporting (AER) Program and is required to report emissions from all operations within your facility for the calendar year 2012 using AQMD's web-based program at <http://www.aqmd.gov/aer/aer.html>.

You must be registered to access the AER-Web (See the enclosed flyer for more information on accessing AER-Web). You are strongly encouraged to attend one of the three workshops detailed in the enclosed flyer which will also include training on AER-Web. All the necessary information on how to log-in and use AER-Web and other essential tools for preparing your AER report are included under <http://www.aqmd.gov/aer/aer.html>.

- If you have questions relative to emission calculations and report preparation, please call the **Help and Support Hotline at (909) 396-3660**.
- For problems with your LOG-IN, please send an e-mail to aer@aqmd.gov with your User ID and facility Id number.

The deadline for submitting the calendar year 2012 AER report and applicable fees is by 5 p.m. on **Tuesday, March 5, 2013**. If your completed report and fees (if any) are not post marked or are not received at the AQMD by the above deadline, you may be subject to enforcement actions by the AQMD and late payment surcharges. The annual emission report **must** be completed and submitted to the AQMD even if emission levels are below the thresholds and no fees are due.

Thank you for your cooperation and your important role in achieving more healthful air.

Sincerely,
Ali R. Ghasemi
Ali R. Ghasemi
Program Supervisor
